Re: Duties recovery services and compliance recommendations

Dear Sir,

Our company appreciated the work, which was done by your senior consultant Marco Ouellet. He was able to secure significant savings for our company. Your senior consultant's knowledge and professionalism was a great asset to our ability to secure the savings we did. The savings we received will be a continued savings for our company in the future as well.

Your consultant conducted its work in a very professional manner and with no disruption to our staff's daily work. I am pleased that we continue to work with your firm, and would be happy to recommend your services to anyone.

Respectfully,

Hugo Berube
Operations Manager
Thule Canada Inc.
